Goods transhipped within the Port are exempt, also ballast, with the exception of dressed stone. For the purpose of levying such due on miscellaneous general cargo landed or shipped at the Kidderpore Docks or at the Jetties, the Commissioners will follow the schedules of charges prescribed for the Docks and the Jetties, and charge one-fifth of the rates therein specified; but where the landing or shipping charge is in these schedules levied on the ton by weight, then the due under this notification shall be four annas per ton. For the purpose of levying such due on goods landed or shipped over the Inland Vessels' Wharves or otherwise than through the Docks or Jetties, the ton shall be reckoned at the actual weight where such is ascertainable. Where the weight is not declared, then the ton shall be reckoned at the respective weights and measurements given in the schedule in force for the Inland Vessels' Wharves.

*The 15th March 1904.*

*No. 24Marine.—Notification.*—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, and in supersession of the rules sanctioned under this Department Notification No. 111Marine, dated the 1st September 1903, which was published at pages 1159—65, Part I, of the *Calcutta Gazette* of the 2nd idem, the Lieutenant-Governor proposes to make the following revised rules for regulating the grant of licenses to possess and transport petroleum in the Lower Provinces of Bengal. The rules will be taken into consideration on the expiry of two months from the date of their publication in the Gazette, and the Lieutenant-Governor will consider any suggestions or observations that may be made by any person concerning them within that period.

D. B. HORN,
*Secy. to the Govt. of Bengal.*

### *Preliminary.*

1. The following rules shall extend to all the territories for the time being administered by the Lieutenant-Governor.

2. In these rules, including the forms annexed thereto,—

(I) "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal:

(II) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899:

(III) the expression "suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section 1 of the Calcutta Suburban Police Act, 1866: and

(IV) "petroleum in bulk" means petroleum in any vessel or receptacle having a capacity of 300 gallons and upwards.

### *Possession of Petroleum.*

3. Licenses for the possession of Petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions, namely: (*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum in places outside the town of Calcutta shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons:

Provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nala, or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high, with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. (1) Notwithstanding anything in rules 3 and 4, and subject to the conditions prescribed in this rule and to such further conditions as may be prescribed by the Local Government in each case, a license may be granted for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk in accordance with plans and specifications approved by the Local Government. The capacity in gallons shall be conspicuously marked on every storage tank or other receptacle in such place.

(2) Every tank or other receptacle for the storage of petroleum in bulk in such a place as is referred to in sub-rule (1) shall be protected by an efficient lightning-conductor:

Provided that a tank or receptacle which is not of sufficient capacity to contain 10,000 gallons of petroleum need not be so protected if it is so situated as not to be liable to cause

danger in the event of the petroleum being ignited, *i.e.*, if it is not in close proximity to any other such tank or receptacle or to any building, and if it is surrounded by a wall or moat or combination of both, sufficient to prevent the flow of petroleum beyond certain circumscribed limits in the event of the escape of the whole contents of the tank when full.

(3) Not less than once in every year the holder of a license granted under sub-rule (1) for the place in which there is, under sub-rule (2), required to be a lightning-conductor, shall test or cause to be tested the efficiency of the lightning-conductor in such manner as the authority granting the license may, by general or special order, declare to be sufficient.

(4) Notwithstanding anything contained in sub-rule (3), an officer appointed in writing by the Local Government in this behalf may enter any place in which there is, under sub-rule (2), required to be a lightning-conductor for the purpose of testing the efficiency of the lightning-conductor at any time after sunrise and before sunset.

6. The District Magistrate, or any Deputy Magistrate or Sub-Deputy Magistrate, or in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of or above the rank of officer in charge of a police-station may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset:

Provided that a Police Officer below the rank of Inspector shall previously obtain the order of the District Magistrate or Commissioner of Police, or Deputy Commissioner of Police or District Superintendent of Police, in writing for such duty.

7. The officer authorised by the preceding rule to enter on such premises may require a sample to be delivered to him from any tank or other receptacle containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule, and to the testing of such samples.

8. The following fees shall be charged for licenses for the possession of petroleum in places situated within the Municipality of Calcutta:—

| | Rs. |
|---|---|

13. (*e*) No naked lights shall be allowed on board any vessel carrying petroleum in bulk.

15. General licenses for a period of twelve months shall be issued for transport by rail, by road, or by water. Such licenses shall authorise the holders to transport any petroleum (other than dangerous petroleum) being their own property, without restriction as to destination or quantity.

16. (1) The holder of a general license granted under rule 15 shall, with each consignment of petroleum conveyed under cover of his license, issue a pass in Form G appended to these rules, specifying the places from and to which the petroleum is to be carried and the quantity of petroleum covered by the pass.

(2) Each such pass shall be numbered.

(3) When petroleum is being carried under any such pass by rail, it shall be subject to all the regulations which may from time to time be prescribed generally or especially in that behalf by the Railway Administration of the line over which it is being carried.

(ii) the person in charge of the boat shall, from sunrise to sunset, show at its stern a red flag, 18 inches long and 12 inches broad, bearing the words "petroleum Boat" marked on it in black letters.

17. The Licensing Officer may, for special reasons to be reported to Government, refuse a license in any case. The reasons for refusing a license shall be communicated to the applicant, if a request to that effect is preferred by him.

18. (1) Every special license for the transport of petroleum shall specify the places from and to which, respectively, the petroleum is to be conveyed, the route by which it is to be taken, the quantity of petroleum covered by the license, and the time for which the license is in force.

(2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

*Explanation.*—This sub-rule shall not apply to the conveyance of petroleum which is brought under a license from beyond the limits of Calcutta and Howrah, and is not intended to be landed within those limits.

19. Applications for special licenses for the transport of petroleum by rail, by cart, by boat, or by steamer, or by two or more of these modes of conveyance, shall specify the description and quality of petroleum to be transported and the places from and to which, respectively, the petroleum is to be conveyed and the route to be taken, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk, shall state that the wagon or vessel in which it is to be carried has been approved or certified, as the case may be, as required by sub-rules (3) and (4) of rule 14. In the case of applications for licenses for the transport of dangerous petroleum under section 5 of the Act, the application shall also contain the particulars required by sub-section (2) of that section.

Provided that a Police Officer below the rank of Inspector shall previously obtain the order of the District Magistrate or Commissioner of Police or Deputy Commissioner of Police or District Superintendent of Police in writing for such duty.

The rules will be taken into consideration on the expiry of two months from the date of their publication in the Gazette, and the Lieutenant-Governor will consider any suggestions or observations that may be made by any person concerning them within that period.

D. B. HORN,
*Secy. to the Govt. of Bengal.*

*Preliminary.*

1. The following rules shall extend to all the territories for the time being administered by the Lieutenant-Governor.

2. In these rules, including the forms annexed thereto,—

(I) "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal:

(II) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899:

(III) the expression "suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section I of the Calcutta Suburban Police Act, 1866: and

(IV) "petroleum in bulk" means petroleum in any vessel or receptacle having a capacity of 300 gallons and upwards.

*Possession of Petroleum.*

3. Licenses for the possession of Petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions, namely: (*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum in places outside the town of Calcutta shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons:

Provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nala, or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high, with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. (1) Notwithstanding anything in rules 3 and 4, and subject to the conditions prescribed in this rule and to such further conditions as may be prescribed by the Local Government in each case, a license may be granted for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk in accordance with plans and specifications approved by the Local Government. The capacity in gallons shall be conspicuously marked on every storage tank or other receptacle in such place.

(2) Every tank or other receptacle for the storage of petroleum in bulk in such a place as is referred to in sub-rule (1) shall be protected by an efficient lightning-conductor:

Provided that a tank or receptacle which is not of sufficient capacity to contain 10,000 gallons of petroleum need not be so protected if it is so situated as not to be liable to cause

danger in the event of the petroleum being ignited, *i.e.*, if it is not in close proximity to any other such tank or receptacle or to any building, and if it is surrounded by a wall or moat or combination of both, sufficient to prevent the flow of petroleum beyond certain circumscribed limits in the event of the escape of the whole contents of the tank when full.

(3) Not less than once in every year the holder of a license granted under sub-rule (1) for the place in which there is, under sub-rule (2), required to be a lightning-conductor, shall test or cause to be tested the efficiency of the lightning-conductor in such manner as the authority granting the license may, by general or special order, declare to be sufficient.

(4) Notwithstanding anything contained in sub-rule (3), an officer appointed in writing by the Local Government in this behalf may enter any place in which there is, under sub-rule (2), required to be a lightning-conductor for the purpose of testing the efficiency of the lightning-conductor at any time after sunrise and before sunset.

6. The District Magistrate, or any Deputy Magistrate or Sub-Deputy Magistrate, or in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of or above the rank of officer in charge of a police-station may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset:

Provided that a Police Officer below the rank of Inspector shall previously obtain the order of the District Magistrate or Commissioner of Police, or Deputy Commissioner of Police or District Superintendent of Police, in writing for such duty.

7. The officer authorised by the preceding rule to enter on such premises may require a sample to be delivered to him from any tank or other receptacle containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule, and to the testing of such samples.

8. The following fees shall be charged for licenses for the possession of petroleum in places situated within the Municipality of Calcutta:—

(*e*) No naked lights shall be allowed on board any vessel carrying petroleum in bulk.

15. General licenses for a period of twelve months shall be issued for transport by rail, by road, or by water. Such licenses shall authorise the holders to transport any petroleum (other than dangerous petroleum) being their own property, without restriction as to destination or quantity.

17. The Licensing Officer may, for special reasons to be reported to Government, refuse a license in any case. The reasons for refusing a license shall be communicated to the applicant, if a request to that effect is preferred by him.

18. (1) Every special license for the transport of petroleum shall specify the places from and to which, respectively, the petroleum is to be conveyed, the route by which it is to be taken, the quantity of petroleum covered by the license, and the time for which the license is in force.

(2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

*Explanation.*—This sub-rule shall not apply to the conveyance of petroleum which is brought under a license from beyond the limits of Calcutta and Howrah, and is not intended to be landed within those limits.

19. Provided that a Police Officer below the rank of Inspector shall previously obtain the order of the District Magistrate or Commissioner of Police or Deputy Commissioner of Police or District Superintendent of Police in writing for such duty.

*No. 20.—Notification.*—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
*Secy. to the Govt. of Bengal.*

### *Revised Rules for the Calcutta Canals and Tolly's Nala.*

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" :—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

*Class I.*—To include all vessels of the usual native types of build.

*Class II.*—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

*Class I.*—

*A.*—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

*B.*—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

*C.*—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

*D.*—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

*Class II.*—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section

XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.
